REQUESTING COPIES OF CITY APPROVED PLANS

Plans (or Blueprints) used to construct many construction projects in the City of Colton are maintained in our storage facility by the City Clerk's Office. These plans can be available to be viewed during business hours at the Building and Safety Division public counter once advanced notice has been given and plans are retrieved by Division staff. Please be advised the residential building plans are only kept by the jurisdiction for 180 days while commercial/industrial plans are retained permanently.

Copying or duplication of plans is possible only when the following guidelines are followed.

1. Plans which were prepared by a licensed architect or engineer cannot be duplicated without the written authorization of that licensed professional. Therefore, before the plan can be duplicated, you will need to make contact with the licensed professional responsible for the drawings as well as the owner of the building and secure their written authorization to duplicate the plans. Attached is a set of 3 documents which must be completed and returned to the Building and Safety Division prior to our releasing the plans for duplication.

The information below will assist you in locating and contacting the Architect or Engineer via the Internet:

Plans which were not prepared by a licensed architect or engineer may be duplicated with written consent of the property owner.

2. Duplication of plans from the storage facility database is a process requiring specialized equipment. The City of Colton has authorized the following vendor to pick-up plans from the Building and Safety Division for the purpose of duplication. You will deal directly with the vendor as to the payment for their service.
