## COLD WEATHER TIPS

*Find Shelter,*

*Be Aware,*

*Be Prepared*

⇒ Avoid sleeping or sheltering under bridges/freeways.

⇒ A flood can develop slowly or within minutes even without any sign of rain. Avoid sleeping or setting up shelter along streams, rivers, or creeks when it has been raining for a long period of time.

⇒ Be aware of streams, drainage channels, basins and any area known to flood suddenly.

⇒ Be careful around moving water, six inches of moving water can make you fall and drown.

⇒ When walking be sure to first check the firmness of wet ground.

## COLD WEATHER TIPS

*Find Shelter,*

*Be Aware,*

*Be Prepared*

⇒ Whenever possible try to keep dry. Find a place to sleep that is out of the rain and away from winds.

⇒ Try wearing several layers of loose fitting, warm clothing instead of just one layer of heavy clothing.

⇒ Wear a warm covering for your head and scarf for your neck. Up to 50% of your body heat can be lost through an uncovered head.

⇒ Avoid drinking alcohol. Alcohol can slow down your circulation and can cause you to lose heat, especially in your hands and feet.
